

PHOENIX™ Modular Rotary Sander

Patent Pending Design

- 1 Modular design allows ultimate flexibility in a single machine
- 2 Dependable 3HP Baldor motor
- 3 Bi-directional folding handle for optimal positioning
- 4 Removable transport dolly
- 5 Bright, flexible LED light (with replaceable bulb) for improved visibility
- 6 Ergonomic handle
- 7 Dust Control ready

PRODUCT DESCRIPTION

The Phoenix™ Rotary Sander is a highly versatile machine designed to meet the many demands of wood floor sanding. The unique modular design offers quick adjustment from driven planetary head to regular rotary shroud (available in three sizes!) on a single machine. The bi-directional folding handle allows full-range positioning of the handle for best operation. Removable transport dolly simplifies movement to the job site. Comes with planetary head and shroud, and 17" buffer shroud.

RECOMMENDED PRODUCTS

AVAC dust containment systems are the perfect mix of power and portability. At 26 and 12 gallon capacities, both models are easy to transport and are available with optional H.E.P.A. filters.

Our water-based TimberGuard line of floor coatings, cleaners, and sealers offers superior protection for your hardwood floors.

The HydraSand 5 attachment mounts to any rotary sander and utilizes five 5" pads mounted to a thick steel plate.
